Overall Length:

3.350 inches

Overall Height:

0.850 inches

Overall Width:

2.500 inches

Special Features:

Material: base : aluminum 5052-h32, case: 26 gauge steel, case finish: nickel plating, completely protected against short circuit of any duration, load regulation 10mv or 0.1% whichever is greater, isolation voltage 500vdc input to output, 400vdc input to case, 100vdc output to case, isolation resistance 50 megohms when measured at 50vdc

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A39900
