Overall Length:

17.500 inches

Overall Height:

7.500 inches

Overall Width:

15.000 inches

Installation Design:

Portable case and slide

Features Provided:

Input voltage range switch and input frequency range switch and circuit overload protection device

Product Name:

Ac/dc power supply docking station

Special Features:

For tactical radios dismounted; use of sincgars; worldwide applications; supports two sincgars vaa: rt-1523a through f, two am-7238b rfpas;

Special Test Features:

Battle tested

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A39900
