Ac Voltage Rating:

120.0 volts

Frequency Rating:

60.0 hertz

Regulation Type:

Multiple stages

Charger Type:

Solid state semiconductor

Charging Voltage In Volts:

Between 7.2 and 18.0

Charging Current Rating In Amps:

4.167

Charging Regulation Method:

taper

Battery Type For Which Designed:

Nickel-cadmium

Phase:

Single

Special Features:

Jobsite radio and charger for dewalt batteries

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A31600
