Overall Length:
4.780 inches
Overall Height:
4.530 inches
Overall Width:
1.970 inches
End Application:
1500 row pu
Input Voltage Rating:
120.0 ac volts single operating power rqmt
Output Voltage Rating:
24.0 dc volts single power output
Output Wattage Rating:
120.0 watts single power output
Rectification Method:
Inverter ac to dc
Output Connection Quantity:
1 single power output
1 single power output
1 single power output Output Connection Type:
1 single power output Output Connection Type: Screw single power output
1 single power output Output Connection Type: Screw single power output Input Connection Type:
1 single power output Output Connection Type: Screw single power output Input Connection Type: Screw single operating power rqmt
1 single power output Output Connection Type: Screw single power output Input Connection Type: Screw single operating power rqmt Shelf Life:
1 single power output Output Connection Type: Screw single power output Input Connection Type: Screw single operating power rqmt Shelf Life: N/a
1 single power output Output Connection Type: Screw single power output Input Connection Type: Screw single operating power rqmt Shelf Life: N/a Unit Of Measure:
1 single power output Output Connection Type: Screw single power output Input Connection Type: Screw single operating power rqmt Shelf Life: N/a Unit Of Measure:
1 single power output Output Connection Type: Screw single power output Input Connection Type: Screw single operating power rqmt Shelf Life: N/a Unit Of Measure: Demilitarization:
1 single power output Output Connection Type: Screw single power output Input Connection Type: Screw single operating power rqmt Shelf Life: N/a Unit Of Measure: Demilitarization: No
1 single power output Output Connection Type: Screw single power output Input Connection Type: Screw single operating power rqmt Shelf Life: N/a Unit Of Measure: Demilitarization: No Fiig:
