End Application:

Dcgs-n

Product Name:

Inavy: rectifier unit; cage: 1u-high, front-end power system racks

Special Features:

Has i2c serial data bus; 3 tpcp rectifier modules; ac conn c20; output voltage range: 11-14.5, 44-58m or 22-29v; power density to 15w/cu.in; hot swappable; integral oring diodes; class b emi filter; led indicators; 66amp; produces up to 66a at 54.4vdc; rack mounted; aluminum case; operating temp: m20.0/p70.0

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
