End Application:

Controller, i

Output Voltage Rating:

5.0 dc volts 2nd power output

Output Wattage Rating:

6.8 watts single power output

Output Current Rating:

70.0 dc amperes 2nd power output

Product Name:

Powercassette series: quick set configurable; (inavy) power supply

Special Features:

Description: 1u high and hot-swap, up to 6 outputs at 600w, ac or dc input; integral led status indicators; universal 85 to 264 vac input; dc input reverse polarity protected

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A39900
