Regulation Type:

Multiple stages

End Application:

Series 9900 wireless intercom system

Charger Type:

Solid state semiconductor

Charging Voltage In Volts:

4.2

Charging Current Rating In Amps:

1.0

Charging Regulation Method:

Controlled

Battery Type For Which Designed:

Lithium-ion

Product Name:

Series 9900 wireless intercom system charging unit, 4-bay

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A31600
