**Inclosure Material:**

Plastic

**Overall Depth:**

35.0 millimeters

**Overall Height:**

60.0 millimeters

**Overall Width:**

850.0 millimeters

**Ac Voltage Rating:**

Between 90.0 volts and 264.0 volts

**Frequency Rating:**

Between 47.0 hertz and 63.0 hertz

**Regulation Type:**

Fixed stage

**Storage Temperature Range:**

-40.0 to 85.0 degrees celsius

**End Application:**

5895-01-556-1797

**Inclosure Type:**

Case

**Charger Type:**

Solid state semiconductor

**Charging Voltage In Volts:**

12.0

**Charging Current Rating In Amps:**

6.00

**Charging Regulation Method:**

Controlled

**Battery Type For Which Designed:**

Lithium-ion or nickel-cadmium

**Features Provided:**

Portable

**Product Name:**

53350

**Phase:**

Single

**Specification Data:**

Fcc/cispr 22 class b government specification

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

A31600
