Inclosure Material:

Aluminum

Inclosure Type:

Case

Charging Voltage In Volts:

15.0

Charging Current Rating In Amps:

8.0

Special Features:

Adapter simultaneously powers the laptop and charges its internal battery from any 22-32 volt dc power source. Designed to meet mil-std 461f, mil-std 810g and mil-std 1275d electrical and environmental standards.

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A31600
