End Application:

F-15sa

Output Voltage Rating:

24.0 dc volts single power output

Output Current Rating:

40.0 dc amperes 1st power output

Product Name:

Power supply unit

Special Features:

Primary-switched quint power ps for din rail mounting w/ selective fuse option technology, input: 3-phase, output: 24v dc/40a

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A39900
