Regulation Type:

Multiple stages

Storage Temperature Range:

-40.0 to 80.0 degrees celsius

End Application:

Boat, harbor

Inclosure Type:

Case

Charger Type:

Solid state semiconductor

Charging Voltage In Volts:

12.0

Charging Current Rating In Amps:

20.0

Charging Regulation Method:

Continuous

Battery Type For Which Designed:

Lead-acid

Product Name:

Charger, battery; truecharge2 battery charger

Special Features:

Description: truecharge2, 20 amp charger, 20a capacity, 12v; settings for gel, flooded, agm or lead-calcium batteries

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A31600
