End Application:

460 vac servi

Output Voltage Rating:

24.0 dc volts and 48.0 dc volts single power output

Output Frequency Rating:

50.0 hertz and 60.0 hertz single power output

Product Name:

(inavy) module, power supply; ps1 power supply module

Special Features:

Description: plugs directly into the side of your p qube; tuv, ce, rohs markings

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A39900
