Overall Height:

15.5 inches

Overall Width:

27.9 inches

Regulation Type:

Multiple stages

End Application:

Surepower battery pack

Charger Type:

Solid state semiconductor

Charging Voltage In Volts:

265.0

Charging Regulation Method:

Continuous

Product Name:

Surepower battery charger single bay

Special Features:

Power consumption 200 watts ; compatible with zoll sealed lead acid and lithium-ion batteries including surepower battery, 4410 battery, 4410 smart battery, and 4410 smartready xl battery

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A31600
