Terminal Quantity:

2

Terminal Type:

Solder tab

Overall Height:

Between 2.594 inches and 2.656 inches

Approximate Shelf Life:

2.0 years

Product Name:

Battery, primary mark 100-mod 2

Voltage In Volts:

67.0

Special Features:

Assembly details refer to drawing 2433389 iaw dod-t-31000; several assemblies associated; id marks; cure; epoxy; solder; may explode if disposed in fire

Shape:

Rectangular w/rounded corners

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T139-a
