Terminal Quantity:

2

Terminal Type:

Socket

Dummy Terminal Quantity:

0

Overall Length:

4.000 inches

Overall Height:

1.500 inches

Overall Width:

1.500 inches

Separator Material:

Vinylite

Case Material:

Material of outer case per specification below

Contact Quantity:

2

End Application:

Type no. MI-338/an

Usage Design:

Supplies power for lighting unit

Terminal Location:

Located on bottom

Discharge Time In Minutes:

45.0

Cell Quantity:

5

Plate Material:

1 cuprous-chloride, 1 magnesium

Plate Quantity Per Cell:

2

Service Method:

Immersion in water

Discharge Rate In Amps:

0.67

Voltage In Volts:

6.00

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T139-a
