Overall Length:

5.810 inches

Overall Diameter:

1.650 inches

Special Features:

Used to provide electrical current to initiate the cartridges of the canopy thrusters during emergency escape from the f-4 aircraft

Supplementary Features:

Dot class code f; dot label code 3; dot marking code dc; storage compatibility group s; hazard class 1.4; inhabited building distance group (00); coast guard class i; firefighting group i; un organization serial number 0349

Departure From Cited Document:

Nalc-mw40

Reference Number Differentiating Characteristics:

As differentiated by unit package quantity and unit packaged type

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

T139-a
