**Criticality Code Justification:**

Zzzy

**Special Features:**

Type lithium; memory retention six months at 60 degrees c, 140 degrees f ; shelf life four years

**Reference Number Differentiating Characteristics:**

Material will be in accordance with ships parts control center activity hx quality control, manufacturing and testing specifications

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

T139-a
