Terminal Quantity:

1

Terminal Type:

Solder tab

Overall Height:

2.320 inches

Overall Width:

Between 1.291 inches and 1.299 inches

Battery Electrolyte:

Lithium

End Application:

F-16

Usage Design:

Used to supply power to the general avionics computer

Terminal Location:

Top

Special Features:

Battery assembly

Shape:

Cylindrical

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T139-a
