Battery Electrolyte:

Alkaline or magnesium bromide

Commercial Battery Size Designation:

C

End Application:

Used on pointer 4000-10 and 4000-11 aircraft emergency locator/transmitter

Voltage In Volts:

7.5

Special Features:

5 "c" alkaline/magnesium batteries enclosed in urethane foam fitted to xmitter housing battery compartment

Shape:

Cylindrical

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T139-a
