Terminal Quantity:

1

Terminal Type:

Connector w/leads

Overall Height:

4.390 inches

Overall Diameter:

1.320 inches

Battery Electrolyte:

Lithium

Wiring Provision Length:

2.0 inches nonspecified lead

Commercial Battery Size Designation:

D

End Application:

P/n 8520305-901; nha p/n 8520380-901

Terminal Location:

Top

Voltage In Volts:

3.4

Special Features:

Battery, lithium; lithium-oxyhalide30ah, operating temp -32c to 93c, energydensi type 479 wh/kg

Shape:

Cylindrical

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T139-a
