Terminal Quantity:

2

Overall Length:

2.420 inches

Overall Diameter:

1.280 inches

Battery Electrolyte:

Lithium

Voltage In Volts:

3.6

Special Features:

8, 5000milliampere hrs; amb temp -40 to +75c; lithium thionyl chloride; battery specification mil-b-49461; terminal contacts: raised nickel plated brass; case material: shrinking sleeve

Shape:

Cylindrical

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T139-a
