Terminal Quantity:

4

Terminal Type:

Connector, female

Dummy Terminal Quantity:

2

Overall Depth:

4.180 inches

Overall Height:

3.940 inches

Overall Width:

1.440 inches

End Application:

An/rsg-5

Joint Electronics Type Designation System Item Name:

Battery, nonrechargeable

Joint Electronics Type Designation System Item Type Number:

Ba-5357/u

Terminal Location:

Top

Ampere Hour Capacity:

1.95

Voltage In Volts:

24.0

Special Features:

Material: lithium manganese dioxide; requires no electrolyte; spiral wound, hermitically sealed cell

Shape:

Rectangular w/rounded corners

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T139-a
