End Application:

6515-01-603-0401 defibrillator/monitor-recorder system

Ampere Hour Capacity:

4.7

Approximate Shelf Life:

5.0 years

Product Name:

Battery primary for fr3 defibrillator

Voltage In Volts:

12.0

Special Features:

Primary battery for fr3 defibrillator, nsn 6515-01-603-0401; 12 vdc, 4.7 ah; lithium manganese dioxide long-life primary cells; approx. 7.4 hours of operating time at 77 degrees f (25 degrees c) when configured for monitoring after no shock advised; 3 years when stored under standby environmental conditions (battery installed); shelf life: 5 years

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T139-a
