Battery Electrolyte:

Lithium

End Application:

Savi st694-sx1 satellite tag

Voltage In Volts:

6.0

Special Features:

Internal; ultrasonically welded lithium pack; 5200 ma/hr; 4000-5000 messages battery life; field replaceable without device removal from asset; standard line power capability via usb interface

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T139-a
