Terminal Quantity:

1

Terminal Type:

Button

Overall Length:

Between 59.5 millimeters and 61.5 millimeters

Overall Diameter:

Between 32.3 millimeters and 34.2 millimeters

Battery Electrolyte:

Carbon zinc

Commercial Battery Size Designation:

D

Joint Electronics Type Designation System Item Name:

Hd-d (d) heavy-duty industrial carbon zinc

Joint Electronics Type Designation System Item Type Number:

Hd-d

Approximate Shelf Life:

6.0 hours

Voltage In Volts:

1.5

Special Features:

Item designation is ansi/neda - 13d (d), iec - r20; operating temp is -30 degrees c to 55 degrees c; has many smaller-type applications

Shape:

Cylindrical

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T139-a
