| Terminal Quantity:                     |
|--|
| 1                                      |
| Terminal Type:                         |
| Connector, plug                        |
| Overall Length:                        |
| 7.500 inches                           |
| Overall Height:                        |
| 2.085 inches                           |
| Overall Width:                         |
| 4.690 inches                           |
| Case Material:                         |
| Steel, corrosion resistant, group 18-8 |
| Battery Electrolyte:                   |
| Alkaline                               |
| Fording Feature:                       |
| Not included                           |
| Terminal Location:                     |
| End                                    |
| Tap Voltage In Volts:                  |
| 15.0 and 15.0                          |
| Ampere Hour Capacity:                  |
| 1.00 and 1.60                          |
| Cell Quantity:                         |
| 24                                     |
| Plate Material:                        |
| Nickel cadmium                         |
| Plate Quantity Per Cell:               |
| 2                                      |
| Nonspilling Feature:                   |
| Included                               |
| Charge Indicator:                      |
| Not included                           |
| Electrolyte Level Indicator:           |
| Not included                           |
| Storage/shipment Condition:            |
| Wet charged                            |
| Integral Charging Facility:            |
| Not included                           |
| Plate Type:                            |
| Negative and positive                  |
| Case Design Type:                      |
| Sealed                                 |
