Overall Length:

19.830 inches

Overall Height:

51.187 inches

Overall Width:

14.035 inches

Plate Width:

12.875 inches

Separator Material:

Rubber, microporous

Battery Electrolyte:

Acid

End Application:

Instruction book no. Navships 362-0830

Plate Length:

44.000 inches

Furnished Items And Quantity:

1 pump, airlift; 2 saddles; 1 tube, syphon; 33 washers

Usage Design:

Secondary battery

Negative Plate Quantity:

39

Positive Plate Quantity:

38

Special Features:

Includes 2 positive syphon plates 12.250 wide

Reference Number Differentiating Characteristics:

Electrode assembly only

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T139-b
