Terminal Quantity:

2

Overall Length:

2.434 inches

Overall Height:

6.950 inches

Overall Width:

1.085 inches

Battery Electrolyte:

Alkaline

End Application:

Battery used on the chinook

Ampere Hour Capacity:

10.00

Time Capacity In Hours:

1.00

Voltage In Volts:

1.2

Special Features:

Non-degrading polyolefin separator; high rate 250a for one minute above 0.76v at -30deg c; battery, rechargeable; 18.8 watts-hour; maximum weight 1.31 pounds; replacement cell for the bb-432b/a;

Supplementary Features:

Battery, bb-599a/a

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

T139-a
