Terminal Quantity:

2

Terminal Type:

Connector, female

Overall Length:

10.750 inches

Overall Height:

8.690 inches

Overall Width:

7.688 inches

Ventilation Design Type:

Venting accomplished through design

Battery Electrolyte:

Potassium hydroxide

End Application:

Pacer dawn

Terminal Location:

Side

Ampere Hour Capacity:

22.00

Time Capacity In Hours:

1.50

Discharge Time In Minutes:

1.5

Discharge Rate In Amps:

12.50

Voltage In Volts:

24.0

Special Features:

Configured on ms24497 battery w/ modifications of vent tubes, mtg feet, location/addition of receptacles, no hold down bar

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T139-a
