Mounting Method:

Case

Battery Quantity:

2

End Application:

Jtids

Usage Design:

For back-up power to retain charge in a communications sytem

Component Controlling Agency:

Gec marconi electronic sys corp

Component Name:

Battery, rechargeable

Component Identifying Number:

H510a002 drawing no.

Special Features:

REPL-AC-EME-NTNI

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T139-b
