End Application:

Uninterruptible power supply

Product Name:

Battery module, 72vdc, 14 ah (2u x 18, 2 x 6 x 7 ah)

Special Features:

G72.0 dc volts single power output; connection quantity - 1 single power output; connection type - connector, plug single power output; electrical power source relationship-operating; input voltage rating-120.0 ac volts single operating power rqmt; input frequency rating-60.0 hertz single operating power rqmt; input phase-single single operating power rqmt; power supply output voltage rating-72.0 volts single power output

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
