Terminal Quantity:

2

Terminal Type:

Screw

Overall Length:

181.0 millimeters

Overall Width:

76.0 millimeters

Ventilation Design Type:

Venting accomplished through design

Battery Electrolyte:

Lead acid

Commercial Battery Size Designation:

12 volt

Ampere Hour Capacity:

15.00

Time Capacity In Hours:

20.00

Approximate Shelf Life:

2.0 years

Case Design Type:

Sealed

Voltage In Volts:

12.0

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T139-a
