Battery Electrolyte:

Lead acid

Commercial Battery Size Designation:

12 volt

End Application:

Low level windshear alert sys relocate/sustain (Ilwas rs)

Ampere Hour Capacity:

34.00

Nospilling Feature:

Included

Special Features:

Immobilized, nospillable electrolyte in agm microporous sun glass separators, for transport complies with dot hmr49 non-hazardous materials, fa-14100, ti 6560.69 sec 8, pg 8-4, battery for remote station electronics enclosure

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T139-a
