**Battery Electrolyte:**

Lead acid

**Commercial Battery Size Designation:**

12 volt

**End Application:**

Low level windshear alert sys relocate/sustain (llwas rs)

**Ampere Hour Capacity:**

34.00

**Nospilling Feature:**

Included

**Special Features:**

Immobilized, nospillable electrolyte in agm microporous sun glass separators, for transport complies with dot hmr49 non-hazardous materials, fa-14100, ti 6560.69 sec 8, pg 8-4, battery for remote station electronics enclosure

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

T139-a
