Battery Electrolyte:
Lead acid
Commercial Battery Size Designation:
12 volt
End Application:
Low level windshear alert sys relocate/sustain (Ilwas rs)
Ampere Hour Capacity:
34.00
Nonspilling Feature:
Included
Special Features:
Immobilized, nospillable electrolyte in agm microporous sun glass separators, for transport complies with dot hmr49 non-hazardous
materials, fa-14100, ti 6560.69 sec 8, pg 8-4, battery for remote station electronics enclosure
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
No
Fiig:
T139-a
