Battery Electrolyte:

Lead acid

Voltage In Volts:

120.0

Special Features:

Operating frequency 50/60hz, autosensing. Frequency rang 46-54hz for 50hz; 56-64hz for 60hz. Voltage wave shape: sine wave. Short circuit protection. Sealed lead acid: mainenance free. Recharge time <3hours to 90 percent capacity. Overload 110%. Power rating va/watt; 1000/900. Dimensions 3.5 x 17.0 x 19.4/89 x 432x494

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T139-a
