Terminal Quantity:

2

Overall Length:

302.0 millimeters

Overall Height:

220.0 millimeters

Overall Width:

172.0 millimeters

Portability Method:

Handle on top

Terminal Location:

Top

Nospilling Feature:

Included

Voltage In Volts:

12.0

Special Features:

Vehicular battery; 750 cold cranking amps; 155 minutes reserve capacity; calcium/calcium (ca/ca) plate technology; anti-vibration construction and envelope separators

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T139-a
