Terminal Type:

Connector, female

Overall Length:

6.600 inches

Overall Height:

0.900 inches

Overall Width:

4.300 inches

Battery Electrolyte:

Lithium

Contact Quantity:

6

End Application:

1680-01-510-1596 survival system, aircraft personnel

Terminal Location:

Side

Cell Quantity:

12

Voltage In Volts:

14.4

Special Features:

Battery consists of (12) lithium ion rechargeable cells of 18650 size, assembled in a 4 series/3 parallel (4s 3p) configuration.

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T139-a
