Terminal Quantity:

2

Terminal Type:

Wire lead, flexible

Ventilation Design Type:

Venting accomplished through design

End Application:

Aircraft equipment

Case Design Type:

Sealed

Special Features:

Battery 25583assy502-1493-04; equalization charge

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T139-a
