End Application:

Iridium 9555 phone

Usage Design:

Achieve optimum performance of cell phone by charging battery

Voltage In Volts:

3.7

Special Features:

High capacity-2, 200 mah, 3.7 v; talk time- 3.2 hours; standby time- 30 hours; weight- 65 g (2.3 oz); battery charge time to 90 percent capacity is 3 hours when charged in a 9555 handset at 25 c (77 f); to achieve optimum performance only charge your battery between 0 c (32 f) and 40 c (104 f) charging will be complete in about 3 hours 15 minutes

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

T139-a
