Terminal Quantity:

2

Terminal Type:

Stud

Overall Length:

20.130 inches

Overall Width:

4.330 inches

Commercial Battery Size Designation:

12 volt

End Application:

An/fsc-127a e

Terminal Location:

End

Ampere Hour Capacity:

109.6

Time Capacity In Hours:

24.0

Approximate Shelf Life:

10.0 years

Plate Material:

Lead alloy

Nospilling Feature:

Included

Discharge Rate In Amps:

38.0

Plate Type:

Negative and positive

Product Name:

Battery

Voltage In Volts:

12.0

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T139-a
