Cross Sectional Shape:

Round

Cross Section Outside Diameter:

0.080 inches

Conductor Form:

Solid single conductor

Special Features:

Buswire, bare copper

Material:

Copper core conductor single conductor

Material Specification:

Qq-w-343 federal specification single material response core conductor single conductor

Surface Treatment:

Tin core conductor single conductor

Specification Or Standard:

S type

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A077a0
