Cross Sectional Shape:

Round

End Application:

An/alq-17 (v) 1/2 common

Conductor Form:

Stranded single conductor

Special Features:

Wire supplied on reel continuous length specified on purchase order; wire size 0.025 sq

Material:

Copper alloy core conductor single conductor

Surface Treatment:

Tin alloy core conductor single conductor

Fsc Application Data:

Wire and cable, electrical

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A077a0
