Cross Sectional Shape:

Round

End Application:

C141-aircraft

Conductor Quantity:

4

Strand Quantity Per Conductor:

19 all conductors

Conductor Form:

Stranded all conductors

Strand Awg Size Per Conductor:

29 all conductors

Material:

Copper core conductor all conductors and plastic polytetrafluoroethylene core conductor all conductors

Surface Treatment:

Silver core coating all conductors

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A077a0
