Cross Sectional Shape:
Round
Electrical Resistance:
50.00 ohms impedance
Cross-sectional Width:
0.195 inches
Conductor Quantity:
1
Capacitance In Picofarads:
29.4 per foot
Conductor Form:
Stranded single conductor
Product Name:
Mode s/tcas cable
Special Features:
Silver coated copper braid shield, 36 ga; 400 to 1600 mhz
Color:
Brown 4th position jacket single conductor
Material:
Steel core conductor single conductor
Precious Material And Location:
Shield wire coating silver
Precious Material:
Silver
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
No
Fiig:
A077a0
