Cross Sectional Shape:

Round

Electrical Resistance:

50.00 ohms impedance

End Application:

Antenna feed; satellite phone system

Conductor Quantity:

2

Capacitance In Picofarads:

23.4 per foot

Conductor Form:

Solid 1st conductor

Product Name:

Flexible communications cable

Material:

Plastic polyethylene 4th position jacket cable

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A077a0
