Cross Sectional Shape:

Round

Tempurature Rating:

150.0 degrees celsius

End Application:

Ca9 tornado

Strand Quantity Per Conductor:

19 single conductor

Conductor Form:

Stranded single conductor

Special Features:

600 volts; 2500psi tensile strength; 13.4 pounds ; 13.9 pounds weight

Specification Data:

81349-mil-w-81044 government specification

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A077a0
