Conductor Quantity:

7

Special Features:

Heavy duty industrial; polyurethane jacket; -20/+80 degrees operating temperature; low temperature flexibility to -20 degrees c; high tensile/tear strength; superior abrasion/cut-through resistance; ultraviolet light stabilized; fungus resistant; excellent resistance to most oils, solvents, fuels and water

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A077a0
