Cross Sectional Shape:

Round

End Application:

5895-01-551-3590, network management system

Usage Design:

Battery and power

Product Name:

Welding wire cable 8 awg

Conductor Cross-sectional Shape:

Tubular solid all conductors

Voltage Rating:

600.0 service voltage all conductors

Special Features:

168 strands bare copper; awg gage 8; flexible conductor; great flexibility; oper temp between minus 40 degrees c to 90 degrees c; good resistance to oil, flame, solvents, grease, ozone and abrasion; epr (epdm) jacket; use for welding, battery cables and temporary and permanent power lead cables

Color:

Black core jacket all conductors

Material:

Copper core conductor cable

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fiig:

A077a0
