Conductor Quantity:

1

Conductor Form:

Braid, tubular single conductor

Special Features:

150 degrees c maximum temp. Due to tin coated copper shield; voltage rating (vac) is 600; wire size is 20 awg; cable jacket color is red; conductor type is silver coated high strength copper alloy; wire color is red w/ white stripe; outside diameter is .092 inch; wire diameter is .065 inch; conductor o/d is .030 inch.

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:
